# ATTENTION CERTIFICATES OF CORRECTION BRANCH

In the attached patent file a petition under 37 CFR 1.324 was filed July 6, 2002 requesting correction of inventorship. A decision granting the request was mailed July 11, 2002. The decision was signed by the SPE of the Art Unit where the application was assigned at that time. Unfortunately, it does not appear that the file was forwarded to the Certificates Of Correction Branch to have the certificate prepared and issued.

The patent is currently undergoing reexamination, the reexamination is being handled by Art Unit 3993 of the Central Reexamination Unit. Per section 1481.02 of the MPEP, a memo to the Certificates of Correction Branch has been prepared along with the Certificate itself and are included with the file.

Since reexaminations are to be handled with "special dispatch", anything that can be done to expedite the handling of this matter will be greatly appreciated.
